

Very competitive compensation

Growing Industry

Attractive Benefits + Health Care

Junior Field Service Engineer (M/F/D)

Graduates in Mechanical, Electronical or Mechatronic Engineering or Certified Technicians

(Based in Dresden / Germany)

Roles and Responsibilities:

- Installation, commissioning and sustaining of Kokusai semiconductor manufacturing equipment at customer sites in Dresden and worldwide.
- Maintain a safe working environment and strictly adhere to all safety guidelines, policies and procedures at customer sides.
- Report on schedule performance and take action to resolve any delays, or issues.
- Troubleshoot, diagnose, and repair any issues that occur.
- Being a major part in building and help growing our new team in Dresden.

About us:

Kokusai Semiconductor Europe GmbH (KSE) is a leading supplier of thermal batch semiconductor manufacturing equipment to semiconductor manufacturing companies in the EMEA region. This equipment is used to process silicon wafers that ultimately become microchips. The equipment is state-of-the-art, technically complex and designed to operate 24/7. Working closely with our parent company in Japan, Kokusai's customers rely on KSE's highly trained and experienced Field Service Engineers (FSE's) to install, commission and repair this equipment.

To support customer expansion projects in the Dresden region, we have several positions available for graduate Mechatronic, Mechanical and Electronic Engineers (Absolventen der Studiengänge Mechatronic, Maschinenbau und Elektrotechnik), certified technicians (staatl. geprüfte Techniker) and field service engineers.

Skills and Experience that we are looking for:

- Bachelors / master's degree / Level 6 or equivalent qualification in Mechanical, Electronical or Mechatronic Engineering or Certified Technician.
- Willingness to work on complex electro-mechanical equipment in a cleanroom manufacturing environment.
- Good manual dexterity with a high focus on safety and quality.
- Aptitude to work with electro-mechanical schematics and ladder logic.
- Good communication skills with the ability to work independently as well as the team environment.
- Working knowledge of MS Office (Excel, PowerPoint).
- Fluent in English and German language and a valid work permit for an EU country is essential.
- Willing to travel to other EU customers and support our company affiliates in the US and Asia.
